## 125,000 BOXES APPLES CROP IN CRESTON VALLEY

One hundred and twenty-five thousand boxes of apples is the estimated crop for Creston Valley this year, according to C. B. Twigg, resident provincial horticulturist, who has completed his August survey of the bearing orchards.

Mr. Twigg's May estimate was for a total yield of 150,000 boxes—a slight gain over last year—but the slump of 30 per cent. is very largely due to the excessively dry July, the official weather report showing hardly a quarter of an inch of rainfall for the whole month. In addition to shortening up the crop the heat has produced more than the usual showing of sun scald and drought spot, though, on the whole, the percentage

of Fancy and Extra Fancy fruit will be well up to last year's average.

While the heavy rains at the first of August were too late to help size such varieties as Transparents and Duchesses, it will be of immense benefit to Wealthys and the still later varieties, and with another soaking about the first of September the Valley should harvest a crop all winter varieties of apples that for size and color should be about the best ever. For this time of year, Mr. Twigg states, the McIntosh Red is showing remarkable color.

## "OFF" Year for Wagener

All over the Valley this is an "off" year for Wagener, and as this variety accounts for at least 25 per cent. of the total orchard plantings, even without the dryness of July, this year's crop was bound to fall short of the usual yearly increase shown in output. Mr. Twigg assures that Wealthys will be a very heavy crop, and Northern Spys, which were "off" in 1923, will be about 300 per cent. heavier than last year.

Pears, which earlier in the season were none too promising, have developed well, and the early-season estimate on these has been revised upward. Instead of the May-forecasted decrease in these of 30 per cent., Mr. Twigg now thinks the yield will be at least 80 per cent. of last year. In the Erickson area, particularly, pears are coming strong, and are

well sized 1923 shipments were 4,100 boxes.

The cherry grower has been the hardest hit of all. Last year's board of trade returns show a shipping of almost 5,000 crates, while the export for 1924 will do well to total 600. The May frosts are responsible in great measure for the big reduction, but the robins and flickers also took a heavy toll, some growers affirming that the birds ate half of what crop the frost left them.

## Plums and Prunes

Plums and prunes will be just about half of last year's product. The 1923 export totalled 5,407 crates, which for 1924 Mr. Twigg reckons 2,800 crates will account for the total output. The severe winter is not to blame for the slump because the trees never carried a finer show of bloom—the cold spring, and May cold dips did the damage.

## Strawberries

The shipping of strawberries promises to be quite well up to the 22,000 crates of last year, but this is largely due to the fact that acreage under crop has increased considerably, otherwise the yield would have been hardly more than 80 per cent. of last year's figures. Wyndel alone has 50 acres that were harvested from this year. The raspberry output is bound to be short of 1923. May was too cold to produce the required vigorous growth to mature a crop, while the almost entire absence of rain in July shortened up the crop at the harvesting end.

The early August rains should, in Mr. Twigg's opinion, give the Valley one of its old-time big years in tomatoes. In the neighborhood of 60,000 tomato plants were put out this spring and, for the most part, have come along well where the necessary cultivation has been given. The horticulturist states that this year there has been a slackening up in the planting of both peppers and cucumbers, and a decided shrinkage in the potato acreage.

The death occurred of Mrs. Gay Roney at Spokane on Monday last. The deceased lady was a resident of Macleod, and had lived here for the past twenty years. She was formerly the wife of the late Eli Wells, well known farmer of this district who was killed by lightning several years ago. She is survived by her husband Mr. Gay Roney, painter and contractor of Macleod, also a sister Mrs. F. A. Adams of Macleod.

The late Mrs. Roney had been suffering for some time past with stomach trouble, but her death was not expected.

IN LOVE WITH 3 SCREEN STARS IN THREE MONTHS

Rod La Roque takes the palm for rapid romance. First it was Nita Naldi, then Gloria Swanson and now it's Leatrice Joy.

Of course it's pictures we refer to. La Roque played with Miss Naldi in the DeMille production, "The Ten Commandments," then came a featured role opposite Miss Swanson in "A Society Scandal," and at present he is featured in the principal male role in Cecil B. DeMille's newest Paramount production, "Triumph," which comes to the Empress next Monday and Tuesday.

La Roque gets a great acting chance in this picture as a man who has never had to work and doesn't, only to find himself stripped of the money and power he was accustomed to as heir to the Garnet Can Works.

Miss Joy is a forewoman in the factory determined to get ahead by her own efforts and not because of any man she might marry. Victor Varconi is La Roque's rival for the girl's hand. Never having had money, he has strange ideas of its power, ideas which permit a series of gorgeous and spectacular scenes when circumstances reverse the positions of La Roque and himself.

A twist that will keep them guessing. Other featured in the cast of the production are Charles Ogle, Julia Faye, Theodore Kosloff, Robert Edson, ZaSu Pitts, Raymond Hatton and George Fawcett.

"Triumph" is due at the Empress Theatre next Monday and Tuesday. The featured players are Leatrice Joy, Rod La Roque, Victor Varconi, Charles Ogle, Julia Faye, Theodore Kosloff, Robert Edson, ZaSu Pitts, Raymond Hatton and George Fawcett.

Pola Negri has set a new mark for magnificence in costumes worn on the screen.

Appearing in the role of "Cleo" in Dimitri Buchowetzki's "Men" which the Russian director produced for Paramount, Pola Negri wears several gowns which eclipse anything yet worn by the Polish star.

"Cleo," the waitress in a cheap wine shop in southern France, through a series of amazing adventures, becomes the most gorgeously apparelled woman of Paris. In order that the fact might be made evident on the screen, the Paramount designing artist brought the entire resources of the studio's elaborate wardrobe to the task. As a result, Pola Negri's gowns in "Men" are the supreme achievements of motion picture costume design.

Among the original and beautiful evening gowns prepared for the Polish star is one solidly embroidered with pearls and rhinestones with a

"A farmers co-operative market, is the only thing that stabilizes the price of produce of the farmer, as the wheat pool did to the price of wheat, so does a co-operative market obtain better and steadier returns from livestock, poultry, hay and other products." This was the closing remark of E. Cook M.L.A. of Pincher Creek, and president of the Pincher Creek Co-operative Farmers Association, after he had addressed a largely attended meeting of the Macleod Wheat Pool organization, in the Town Hall, Macleod, Aug. 16th.

The meeting was called for the purpose of receiving a report on the Wheat Pool Convention in Calgary from W. H. Shields, M.L.A., of Macleod, who was appointed delegate from this district. Mr. Shields gave a splendid report of the Convention, and dealt very clearly with his subject, showing the splendid results obtainable by the wheat pool, and the many advantages that the members would derive from the Pool. On the advice of Mr. Shields a local committee was elected consisting of seven farmers from the surrounding district namely, R. Carrol of Hazelmere, D. Gillen of Waterton, J. Hornor of Rathwell, H. Mackintosh of Howe, J. Shields of Ardenville, P. H. Tolley of Pearce, and A. Burbridge of Allanfield. A nominal fee of twenty five cents was paid by all members to defray postage and other small expenses. The Wheat Pool in Macleod

district has a large number of enthusiastic members, who follow the work of the Pool very closely.

At the conclusion of the business Mr. Shields introduced Earl Cook, M.L.A., and G. H. Stringer of Pincher Creek, the former being president, and the latter manager of the Pincher Creek Co-Op.

Mr. Stringer addressed the meeting and explained very fully the work of the Pincher Creek branch, what a success it had proven, and how the business was organized last year. The members of the organization, all of whom were farmers from the Pincher district were receiving more money for their livestock and all produce, when it was sold through the association. "We have never yet sold eggs for less than 15 cents," said Mr. Stringer, "and we could have sold lots more, but the demand was greater than the supply. We have sold hay at a far better price than the farmer would get if he had negotiated privately, the same applies to livestock and poultry, both alive and dressed."

Mr. Stringer strongly advised the Macleod farmers to organize right away and secure a better market and better prices for their produce, at the same time building up an organization or business that would belong to the producer, and the producer would have the full say concerning his products.

I intend to divulge a secret concerning Pola Negri.

Throughout the world her dark hair, striking face and wonderful eyes are familiar in roles such as she played in "Passion" or "Mad Love." They are all characters of the vampire type, and they have made her famous.

The natural result is that the public has come to consider Pola Negri's art confined to portrayals of this kind. This is not true.

I believe Pola Negri would have made just as great a success playing in roles of entirely different types, roles which presented her as sweet and womanly. I know she has always wanted to play these parts.

Her first stage characters were in "Hannule" and "Sodom's End." They presented her as a golden-haired girl, sweet, joyous and radiating sunshine. Remembering the Pola of "Passion," it would seem impossible for her to play such a role but so supreme an artist is not confined to any single type of expression. Her "Hannule" and other plays in which she appeared were hailed as triumphs.

As a dramatic actress, Pola Negri is one of the greatest of our time. She is one of the few whose tears upon the screen are convincing. In portraying human suffering, I know no other actress with as great inner strength and power. It is not only life to her to great heights but it also inspires those with whom she works. They, too, feel the power of that strong spirit.

It is not too much to prophesy for Pola Negri a fresh trend in the expression of her genius. The light heartedness and power. It is not only life to her to great heights but it also inspires those with whom she works. They, too, feel the power of that strong spirit.

Should my prophecy come true, the world which knows her as the dark mistress of tragedy will be astounded by the art which makes it possible for her to express herself in such a totally different manner. Her versatility will make new friends and open the way to many new and gratifying triumphs.

THE STARVING CHILDREN OF  
GREECE

A Western Canada Grain Campaign

Amongst the millions of war  
victims, none make a more tragic and  
moving appeal than the multitude of  
women and children who are among  
the million and a half of Greek  
refugees evicted from Turkey under  
the Treaty of Lausanne. It is said  
that this human tragedy is the most  
terrible since the days of the Goths  
and Huns; that the condition of these  
unfortunates is appalling in the ex-  
treme and that the world has never  
witnessed so much concentrated child  
suffering. The Save the Children  
Fund, an all-British organization, is  
working under the League of Nations  
in an endeavor to feed some of these  
little ones, and thus to save countless  
human lives.

Canada is responding, and with her  
sister Dominions, and now the  
Canadian West is being given an  
opportunity to join in this great  
work of alleviation by means of a  
Grain Campaign, as well as cash

contributions. Under this plan the  
farmer who has a crop is asked to  
donate a certain number of bushels  
of wheat when delivering at the  
elevator. All the Elevator Com-  
panies, Grain Growers Organisations,  
United Farmers Clubs, Women's In-  
stitutes etc., are co-operating in the  
matter. The cry of the child is  
reaching our favored land and is be-  
ing and will be heard.

The Campaign is endorsed by many  
leaders, such as Premiers Bracken  
and Greenfield, Hon. T. A. Crerar,  
H. W. Wood, J. B. Musselman, Geo.  
Edwards and others. A Western  
Committee has been formed with C.  
W. Rowley as Honorary Treasurer  
with offices at 305 Scott Block,  
Winnipeg. Frank Yeigh of Toronto,  
the well-known Canadian author and  
lecturer, is in the West, assisting in  
the Campaign as Representing the  
Save the Children Fund Head Office  
in London England.

This appeal is made to the people  
of Canada because of its urgent need.  
Already cash and food stuffs to the  
value of \$75,000, have been contrib-  
uted by Canada, but much more is re-  
quired.

The fact that one bushel of wheat  
will keep a child alive for a month  
makes this kind of life-saving easy.  
It is still "More blessed to give than  
to receive."

The Committee will be glad to  
have volunteer help, or otherwise in  
canvassing, addressed as above, to  
whom explanatory literature will be  
sent on request.

Canada will never be the poorer  
for sharing her wealth, even to a  
slight degree, with these or any other  
hungry children.

The Manchester Guardian says, in  
a recent issue—

"The refugees in Greece are the  
last of the debris left up by the war,  
that calls for foreign aid. There were  
originally about a million of them  
driven out of Turkey after the  
catastrophe of 1922, and by the help  
of the Greek Government, the League  
of Nations, and friends in England,  
half of the total have been planted on  
the land or taken into some sort of  
employment. The other half still re-  
mains and requires support and to it  
have been added nearly 200,000 more  
refugees who are leaving Turkey  
under the scheme for the exchange of  
populations. Some day Greece will  
be the richer and better for this new  
material, but at present their main-  
tenance is merely an added  
burden which the Greek Government

and people are not able to bear. The  
resources of the British association  
which are administering relief are  
dwindling, and the needs of next  
winter have already to be thought of.  
Those are good reasons why the sup-  
port be continued. Greece has pass-  
ed through a most difficult time, and  
it is very reasonable to ask that she  
should now settle down to work hard,  
and do all that she can to support  
her own people. But, the refugees  
form so large a proportion of the  
total population that their main-  
tenance and settlement on the land must  
in any event be beyond the present  
means of the Greek people. In a  
literal sense, every little will help,  
for three cents a day suffices to keep  
a refugee."

He who gives quickly, give twice.

A laugh is just like music,  
It freshens up the day,  
It tips the peaks of life with light,  
And drives the clouds away:  
The soul grows glad that hears it,  
And feels its courage strong:  
A laugh is just like sunshine  
For cheering folks along.—Anon.

## LIKE MOTHER, LIKE DAUGHTER

Small Child (admiring herself in  
the looking glass)—You must have  
been awfully pretty once, mummy.  
Mother—Why do you think that,  
darling?  
Little Girl—Because you've got  
such a lovely little girl.

## DAY AND NIGHT SHIFTS

"The main difference 'twixt me  
an' my boy Jim," explained a Kan-  
sas farmer, "is that when I put in  
a day at work I don't feel runnin'  
round nights, and when Jim puts in  
a night runnin' round he don't feel  
much like workin' days."

## TOO MUCH FOR HIM

Bill wanted to slip out of the bar-  
racks—unofficially—to see his girl,  
and he went to the sentry and stated  
his case.  
"Well," said the sentry, "I'll be  
off duty when you come back, so  
you ought to have the password for  
tonight. It's 'Idiosyncrasy.'"  
"Idiosyncrasy?"  
"I'll stay in the barracks," said  
Bill.

## "ENGLISH SPOKE"

Funny things happen to Americans  
on the continent. A New York man  
entered a humble cafe whose win-  
dow bore the legend, "English spoke."  
A Flemish woman was mopping the  
floor. The proprietor advanced to  
meet his guest. "Will monsieur be so  
good," he said, "as to go outside and  
scratch his feet?"

## IT WAS TEACHER'S FAULT

A school teacher received the fol-  
lowing note: "Dear Madam please  
excuse my Tommy to-day he went  
come to school because he is acting as  
timekeeper for his father and, it is  
your fault. You gave him a example  
if a field is 5 miles around how long  
will it take a man walking 3 1/2 miles  
per hour to walk 2 1/2 times around it?"

## Stop falling hair!

Money Back  
If It Doesn't

Scalp specialists tell you the big problem  
with scalp ailments is to  
get the people to form a  
constant habit of tak-  
ing care of their hair.  
Van Koo Liquid Scalp  
Massage comes in a pat-  
ented bottle with a spe-  
cial rubber applicator  
attached. The method of  
application is easy—and  
clearly. The medicament is fed  
through rubber nipples directly  
to the roots of the hair while  
the scalp is gently massaged.  
One minute a day with Van Koo  
stops falling hair, relieves itching  
scalp and grows new hair. Ask  
about 30-day treatment plan.  
We give you a positive guarantee.

"Here's some fine asparagus," said

he held up a bunch for inspection.  
The lady gazed at it in astonishment.  
"Does it really grow like that?"

Regular Meeting  
Town Council

On Monday evening last at the  
Town Hall the regular fortnightly  
meeting of the Town Council was  
held, there was a full attendance with  
Mayor Macdonald presiding.

The chief item of interest was the  
discussion of the 55 cent gas rate  
for Macleod and other northerly  
Towns, which is the proposed rate  
by the Natural Gas Company, and  
which is an advance of 20 cents  
over the present price. The Mayor  
informed the Council that he had at-  
tended a meeting at Claresholm a  
few days ago on behalf of Macleod,  
of representatives from Granum,  
Claresholm, Nanton and High River  
who were averse to paying the ex-  
horbitant increase as laid out by the  
gas company. This convention had  
appointed Mayor Macdonald as their  
legal representative to fight this case  
on the same lines as Lethbridge, was  
doing. The Council agreed with the  
action of the Convention and were  
in favor of the Mayor fighting the  
case for them on behalf of Macleod.

Councillor McLeod asked for a  
statement from the Macleod Jubilee  
Committee as to the finances and  
how the Jubilee made out, as he  
thought it was only right that this  
should be produced, as the Macleod  
people had supplied the funds. Mayor  
Macdonald informed the meeting,  
that this was really nothing what-  
ever to do with the Town Council and  
was out of their jurisdiction alto-  
gether, but the Jubilee Committee  
would furnish a full financial state-  
ment for publication as soon as all  
outstandings had been paid and a  
complete statement could be issued.  
On this explanation Councillor Mc-  
Leod withdrew his motion.

The usual grants were passed and  
the meeting adjourned to the next  
regular meeting the first Monday in  
September.

"Do you believe there is a devil."  
7-year-old Johnny Austin asked his  
companion in Sunday school.

"Of course I do."  
"Huh! It's the same as the story  
about Santa Claus," said Johnny.  
"It's your father."

## TASTY LAYER SANDWICHES

Use equal sized loaves of brown  
and white bread. Trim off the crusts  
and slice fairly thin. For the filling  
use equal parts of beef and pork  
cooked and ground, about 1/4 cup of  
celery and some nuts chopped. Mix  
this with mayonnaise and cream.  
Spread a slice of white bread with  
butter, then spread the meat filling.  
Butter both sides of a slice of brown  
bread and lay it on this, add a layer  
of meat and a buttered white slice.  
Continue until there are five slices,  
three of white and two of brown, or  
reverse the order. Wrap them in oil-  
ed paper and cloths. Keep them in  
the cellar with a light weight on them  
for several hours or overnight. When  
ready to use cut each sandwich in  
four slices and you will have a sand-  
wich that looks like layer cake, is  
tasty and appetizing.

## LEMON SPONGE PIE.

1 lemon, grated rind and juice.  
1 cupful of sugar.  
1/2 teaspoonful of salt.  
2 1/2 tablespoons of flour.  
3 egg yolks.  
1 cupful of milk.  
Mix above well, and lastly beat the  
whites of eggs stiff and fold into the  
rest of the mixture. Mix all well  
with a spoon, turn into pie crust and  
bake like custard pie in moderate  
oven for 45 minutes or until done.

## GREEN TOMATO MINCEMEAT

1 peck green tomatoes, 5 lbs. brown  
sugar, 1 gallon chopped apples, 4  
lbs seeded raisins, 1-2 lb. butter, 1  
glass vinegar, 1 tablespoon salt, 1  
tablespoon each of cloves, cinnamon,  
nutmeg and allspice. Put tomatoes  
through grinder, pour cold water  
over to cover them, drain, do this  
three times to get off all the green  
water. Mix the rest of ingredients  
except apples and spices, add them  
last, and boil half hour. Seal hot.  
Put this recipe away until fall.  
then try it.

Mrs. W. L. McGregor.

## APPLE DUMPLINGS.

The baking powder biscuit dough  
(2 cups flour, 2-3 cup milk or water,  
4 teaspoons baking powder, 3 table-  
spoons fat, 1/2 teaspoon salt) may be  
rolled into a thin sheet and cut into  
pieces for apple dumplings. One-  
half a large apple, peeled and quar-  
tered, is enough fruit for one dumpling. Fold the dough over the fruit.  
Bake 30 minutes in not too hot an  
oven. Peaches or cherries are excel-  
lent when used the same way. Serve  
with whipped cream and sugar or a  
fruit sauce.
